My Personal Learning Plan

> "Tell me and I forget. Teach me and I remember. Involve me and I learn."
> -Benjamin Franklin

1 SELF-ASSESSMENT

In teaching, technology-supportive assessment has been an area in which I need growth. Also, giving immediate feedback to students, has also been an area that I would benefit from practicing. When I was teaching online, I wanted to be able to get back to students faster on their strengths and areas for them to practice.

2 ISTE STANDARDS

2.5.a Use technology to create, adapt, and personalize learning experiences that foster independent learning and accommodate learner differences and needs.

2.7 Analyst: Educators understand and use data to drive their instruction and support students in achieving their learner goals.

3 GOALS

- Design an interactive digital graphic organizer for narrative writing for my 2nd graders to organize their creative stories in ELA.
- Complete a lesson on Pear Deck that has the students brainstorm ideas anonymously, so my 2nd graders can collaborate and write a narrative story together.
- Create an online assessment for me to gather data
- to assess if I am teaching effectively online.

Share:
Ways that I can share what I learned with others is by writing a Instagram post. I would start an Instagram page that is dedicated to sharing things that I have learned. I think that sharing what I learned in a faculty meeting, or emailing my coworkers on resources. This way I can tell my fellow teachers about new and upcoming training and ideas on teaching.
